

COVID-19 Risk assessment – Opening schools to all pupils

REVIEWED 23 FEBRUARY 2021 – SPECIFIC TO RE-OPENING OF SCHOOL TO ALL PUPILS FROM 8 MARCH 2021 (PAGES 30-)

REVIEWED JANUARY 2021 – SPECIFIC TO RESTRICTED OPENING OF SCHOOLS DURING THE NATIONAL LOCKDOWN (PAGES 25-29)

The Government has asked schools to adhere to the following:

It is the Government's plan that all pupils, in all year groups, will return to school full-time from the beginning of the autumn term.

This new guidance (July 2020) is intended to support schools, both mainstream and alternative provision, to prepare for this. It applies to primary, secondary (including sixth forms), infant, junior, middle, upper, school-based nurseries and boarding schools. We expect independent schools to follow the control measures set out in this document in the same way as state-funded schools. The guidance also covers expectations for children with special educational needs and disability (SEND), including those with education, health and care plans, in mainstream schools.

The link to new guidance (FEBRUARY 2021) is as follows:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/963541/Schools_coronavirus_operational_guidance.pdf#page=7&zoom=100,93,338

Separate guidance is available for early years, further education colleges and for special schools, as follows:

<https://www.gov.uk/government/publications/coronavirus-covid-19-early-years-and-childcare-closures/coronavirus-covid-19-early-years-and-childcare-closures>

Separate guidance for SEN school provision:

<https://www.gov.uk/government/publications/guidance-for-full-opening-special-schools-and-other-specialist-settings/guidance-for-full-opening-special-schools-and-other-specialist-settings>

The government guidance says the following:

Schools must comply with health and safety law, which requires them to assess risks and put in place proportionate control measures. Schools should thoroughly review their health and safety risk assessments and draw up plans for the autumn term that address the risks identified using the system of controls set out below. These are an adapted form of the system of protective measures that will be familiar from the summer term. Essential measures include:

- a requirement that people who are ill stay at home
- robust hand and respiratory hygiene
- enhanced cleaning arrangements
- active engagement with NHS Test and Trace
- formal consideration of how to reduce contacts and maximise distancing between those in school wherever possible and minimise the potential for contamination so far as is reasonably practicable

How contacts are reduced will depend on the school's circumstances and will (as much as possible) include:

- grouping children together
- avoiding contact between groups
- arranging classrooms with forward-facing desks
- staff maintaining distance from pupils and other staff as much as possible

Employers must protect people from harm. This includes taking reasonable steps to protect staff, pupils and others from coronavirus (COVID-19) within the education setting.

Schools have remained open to some pupils since 20th March, welcoming more pupils back from 1 June. Schools should therefore have already assessed the risks and implemented proportionate control measures to limit the transmission of coronavirus (COVID-19) for a limited number of pupils.

As part of planning for full return in the ~~autumn term~~, 8 March 2021 it is a legal requirement that schools should revisit and update their risk assessments (building on the learning to date and the practices they have already developed), to consider the additional risks and control measures to enable a return to full capacity in the autumn term. Settings should also review and update their wider risk assessments and consider the need for relevant revised controls in respect of their conventional risk profile considering the implications of coronavirus (COVID-19). Schools should ensure that they implement sensible and proportionate control measures which follow the health and safety hierarchy of control to reduce the risk to the lowest reasonably practicable level.

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/annex-a-health-and-safety-risk-assessment>

School employers should have active arrangements in place to monitor that the controls are:

- effective
- working as planned
- updated appropriately considering any issues identified and changes in public health advice.

The risk assessment template below sets out the known hazards and important controls that have been advised either by the Government/DfE, the World Health Organisation (WHO), Public Health England (PHE), NHS (safe practice) or good practice. Some are suggested measures that may be or may not be applicable to your school and specific education setting. The responsible person within the school should use this information to formulate a plan / safe procedures that fit your school.

There are some specific issues that are addressed in the risk assessment, but for clarity, please read the full Government advice to schools.

Personal Protective Equipment (PPE) including face coverings and face masks:

Face coverings may be beneficial for short periods indoors where there is a risk of close social contact with people you do not usually meet and where social distancing and other measures cannot be maintained.

In primary schools, we recommend that face coverings should be worn by staff and adult visitors in situations where social distancing between adults is not possible (for example, when moving around in corridors and communal areas).

Children in primary school do not need to wear a face covering.

Face coverings are not classified as PPE (personal protective equipment). PPE is used in a limited number of settings to protect wearers against hazards and risks, such as surgical masks or respirators used in medical and industrial settings. A face covering is a covering of any type which covers your nose and mouth.

Most staff in schools will not require PPE beyond what they would normally need for their work. If a pupil already has routine intimate care needs that involve the use of PPE, the same PPE should continue to be used.

Additional PPE for coronavirus (COVID-19) is only required in a very limited number of scenarios, for example, when:
a pupil becomes ill with coronavirus (COVID-19) symptoms, and only then if a 2 metre distance cannot be maintained
performing aerosol generating procedures (AGPs)

When working with children and young people who cough, spit or vomit but do not have coronavirus (COVID-19) symptoms, only any PPE that would be routinely worn, should be worn.

The guidance on safe working in education, childcare and children's social care provides more information about preventing and controlling infection. This includes:

Face coverings (or any form of medical mask where instructed to be used for specific clinical reasons) should not be worn in any circumstance by those who may not be able to handle them as directed (for example, young children, or those with special educational needs or disabilities) as it may inadvertently increase the risk of transmission.

The majority of staff in education settings will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain a distance of 2 metres from others. **PPE is only needed in a very small number of cases including:**

- Children, young people and students whose care routinely already involves the use of PPE due to their **intimate care needs** should continue to receive their care in the same way.
- If a child, young person or other learner becomes **unwell with symptoms of coronavirus** while in their setting and needs direct personal care until they can return home. A facemask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then gloves, an apron and a facemask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example, from coughing, spitting, or vomiting, then eye protection should also be worn.

- PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as a very young child or a child with complex needs). More information on PPE use can be found here <https://www.gov.uk/government/publications/safe-working-in-education-childcare-and-childrens-social-care/safe-working-in-education-childcare-and-childrens-social-care-settings-including-the-use-of-personal-protective-equipment-ppe>

The system of controls:

Protective measures

This is the set of actions schools must take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail in the sections below.

Prevention:

- 1) Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school.
- 2) Clean hands thoroughly more often than usual.
- 3) Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.
- 4) Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach.
- 5) Minimise contact between individuals and maintain social distancing wherever possible.
- 6) Keep occupied spaces well ventilated.

In specific circumstances:

- 7) Ensure individuals wear the appropriate personal protective equipment (PPE) where necessary.
- 8) Promote and engage in asymptomatic testing, where available.
- 9) Where necessary, wear appropriate personal protective equipment (PPE).

Response to any infection

- 10) Engage with the NHS Test and Trace process.
- 11) Manage confirmed cases of coronavirus (COVID-19) amongst the school community.
- 12) Contain any outbreak by following local health protection team advice.

Social distancing in early years and primary schools:

We know that, unlike older children and adults, early years and primary age children cannot be expected to remain 2 metres apart from each other and staff. In deciding to bring more children back to early years and schools, we are taking this into account. Schools should therefore work through the hierarchy of measures set out above:

- Avoiding contact with anyone with symptoms
- Frequent hand cleaning and good respiratory hygiene practices
- Regular cleaning of settings
- Minimising contact and mixing

The overarching principle to apply is **reducing the number of contacts between children and staff**. This can be achieved through **keeping groups separate (in 'bubbles')** and through **maintaining a distance between individuals**. These are not alternative options and both measures will help, but the balance between them will change depending on:

- Children's ability to distance
- The layout of the school
- The feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary).

It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible.

It remains important to reduce contact between people as much as possible, and we can achieve that and reduce transmission risk by ensuring children, young people and staff where possible, **only mix in a small, consistent group** and that small **group stays away from other people** and groups.

Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible. Siblings may be in different groups.

All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Where this is not possible with younger children, teachers in primary schools can still work across groups if it is required to enable full educational provisions. Supply Teachers, peripatetic teachers and temporary staff may move between schools if required.

Primary schools:

It is recommended that groups should be kept as small as possible. If this can be smaller than a year group it should be. So a normal class size may be appropriate. Schools should demonstrate that they are keeping students in as small and consistent groups as possible. Large gatherings such as assemblies or collective worship should be avoided.

At Eltham Church of England Primary School, a 'bubble' will be a year group . Children will be kept in class set-up for the vast majority of the time, except for playtime, lunchtime and cross class 'intervention' work.

Social distancing in primary schools is difficult. Adults should remain 2 metres apart where possible, close face to face contact should be avoided and contact within 1 metre of anyone must be limited. For children that are old enough, they should be supported to maintain distance and not touch staff or their peers where possible. It is recognised that this will not always be possible with the youngest students.

Changes to classrooms so that students sit side by side and facing forwards, rather than face to face or side on and perhaps moving unnecessary furniture may be required.

Government guidance advises the following:

Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around the school, they can look to implement year group sized 'bubbles'. Whatever the size of the groups, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups.

Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups, the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate.

Both approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially.

Measures not in the classroom:

Groups should be kept apart and movement around the school site kept to a minimum. Schools should avoid busy corridors, entrances and exits. Breaks and lunchtimes should be staggered. Large gatherings such as assemblies and collective worship should be avoided. The use of staffrooms should be minimised. Staff spaces that are shared must be planned to enable social distancing and suitable sanitising.

Measures for arriving at and leaving school:

Where travel to school patterns allow staggered start and finish times in your school, you should consider this to keep groups apart. Schools must communicate this effectively to parents and students to prevent congestion or large gatherings at the start and finish of each day.

Schools should implement a process for removing face coverings when pupils or staff who use them arrive at school. Pupils should be taught how to do this correctly (not touching the front of their face), washing hands immediately on arrival, disposing of temporary coverings appropriately and placing reusable ones in plastic bags to take home.

Equipment in schools:

For individual and very frequently used equipment such as pencils and pens, it is recommended that staff and pupils have their own items they are NOT shared.

Classroom based resources can be shared within a bubble. These must be cleaned regularly as should surfaces. Resources shared between groups, such as sports, art and science equipment should be cleaned frequently and meticulously between use or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics).

Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, and the school should ensure such resources are cleaned when they are returned to school.

Outdoor equipment should be more frequently cleaned. This also applies to resources inside and outside by wraparound care providers. It is recommended that students limit the amount of equipment they bring to school to only essentials. Shared resources can be taken home but avoided where unnecessary. All such resources will need to be cleaned before used by others.

Engage with the NHS Test and Trace process:

Schools must ensure they understand the NHS Test and Trace process and how to contact their local Public Health England protection team. The guidance should be consulted to ensure this is all fully understood and followed by staff members and parents/carers.

Manage confirmed cases of COVID-19:

Schools must take swift action when they become aware that someone who has attended has tested positive for COVID-19. They should contact the local health protection team. This includes, implementing their advice, specific procedures and containing any outbreak as directed.

Dedicated school transport – no public use

Normal public transport social distancing rules do NOT apply. The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in the overall guidance for schools. Schools should consider:

- How pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school
- Use of hand sanitiser upon boarding and or disembarking
- Additional cleaning of vehicles
- Organised queuing and boarding where possible
- Distancing within the vehicle wherever possible
- The use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group.

Premises Management

It is important that, prior to re-opening for the autumn term, all the usual pre-term building checks are undertaken to make the school safe.

Sharing Coronavirus (COVID-19) risk assessment

Schools should share the results of their risk assessment with their workforce. If possible, they should consider publishing it on their website to provide transparency of approach to parents, carers and pupils (The HSE would expect all employers with over 50 staff to do so).

Health and Safety Risk Assessment – Re-opening Schools – COVID-19

Subject of Assessment	Opening of schools during the coronavirus pandemic				
Assessed by	Matthew Bulpitt	Date	First written 10 July 2020	Review date	Reviewed September 2020 Reviewed January 2021 Reviewed 23 February 2021
Details of workplace/activity	Students and employees partaking in school activities within the school premises, including general classroom activities, dining, break-times, playgrounds, pick-up and drop off (where applicable), First aid and external visitors to the school.		Persons Affected <i>(Who may be harmed)</i>		
			Students, Employees, Contractors and Visitors.		

Hazards and Risks		Existing Control Measures	Risk Level <i>(Very High, High, Medium, Low)</i>	Further Actions
1.	<p>Spread/contraction of COVID-19 due to interaction with a person who has symptoms of the disease, a person who may be asymptomatic or lack of information on how infection risks are controlled in the school.</p> <p>Stress or anxiety caused due to lack of support, information or staff consultation.</p>	<ul style="list-style-type: none"> The school has informed parents, students, carers, employees and visitors not to enter the school if they are displaying any symptoms of coronavirus (following the COVID-19 guidance for households with possible coronavirus infection); Parents receive guidance on school times for their child and protocols set out for attending the school i.e. should remain 2m apart from others, should follow staff members instruction and should not congregate outside the school; Parents issued specific school protocols for school attendance for them to explain to their children; Risk Assessment for children with Education Health Care Plans are reviewed to include any changes in safety measures; Staff are briefed and consulted on school procedures and the plans for re-entry of students; Employees have had sufficient training and briefing regarding infection control and school protocols; 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> Staff are up to date on other related guidance and support in relation to themselves and students such as stress and wellbeing including: https://www.gov.uk/government/publications/covid-19-guidance-on-supporting-children-and-young-peoples-mental-health-and-wellbeing/guidance-for-parents-and-carers-on-supporting-children-and-young-peoples-mental-health-and-wellbeing-during-the-coronavirus-covid-19-outbreak In relation to mental health and stress support organisation, details are available to staff including confidential employee helplines and information that can be provided to students; Staff can access the free helpline "Employee Assist Programme" for school staff and targeted support for mental health and wellbeing There are communication, consultation and support networks in place for staff and if there are particular concerns staff can raise them quickly and effectively; Hazard reporting mechanisms are in place and are easily accessible; Talks with staff about the planned changes (E.g. safety measures, timetable changes and staggered arrival and departure times), have taken place, including discussing whether additional training would be helpful COVID-19 guidelines are published in the school's website Parents/Carers are informed of the general arrangements being made and what is expected of them in terms of dropping off and collecting children and any other local important procedures, emphasising their role in terms of the local and national approach would also be appropriate as that potentially impacts on school life and the whole pandemic control measures When possible staff will be permitted to work from home CEV staff members are advised not to attend the workplace and may work from home where possible. 		<p>Remind Employee Assist on 9 July</p> <p>Update Website by 15 July</p>

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> Whenever possible, meetings will take place remotely via videoconferencing or phone, and letters are also used for communications People deemed vulnerable take particular care to minimise contact with others and are advised to follow Guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19 Risk assessments and plans are consulted and discussed with relevant staff, including on a one-to-one basis for some to enable staff to speak about their own situation and reasonable adjustments to be made The school will try as far as practically possible to be flexible and accommodate additional measures for vulnerable people where appropriate Specific risk assessments for new and expectant mothers are completed in conjunction with guidance https://www.gov.uk/government/publications/coronavirus-covid-19-advice-for-pregnant-employees/coronavirus-covid-19-advice-for-pregnant-employees Staff that travel abroad during the summer holiday to countries that are not on the Coronavirus (COVID-19): travel corridor list will self-isolate for 14 days before they are due to return to work in the autumn term. Where it is not possible to avoid a member of staff having to quarantine during term time, the school will consider if it is possible to temporarily amend working arrangements to enable them to isolate and work from home Staff will need to be available to work in school during term time. Discuss leave arrangements with staff to inform workforce planning taking into account their individual contractual arrangements. There is a risk that where staff travel abroad for a legally permitted reason, their return travel arrangements could be disrupted due to coronavirus (COVID-19) restrictions and they may need to quarantine on their return. Guidance on how to self-isolate when you travel is available. 		Include 9 July + separate email to all staff

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
<p>2. Spread/contraction of COVID-19 due to lack of social distancing measures during the school day including:</p> <ul style="list-style-type: none"> Drop off / entry to the school. 	<p>Drop off and pick up (primary):</p> <ul style="list-style-type: none"> Drop-off and collection points and timings for each group have been identified, this information has been cascaded to parents. The playground has been demarcated to enable parents to remain 2m away from other parents during drop off of students; Parents are asked to not congregate in the playground for longer than 5minutes before the designated school start time for their child (if more than one child is to be dropped off, parents will be able to remain in the playground keeping 2m away from others); Start times have been staggered for each class in order to prevent large numbers of parents in the playground/on school grounds; Start times are designed to enable one group of parents to leave the site before the next group arrive; Parents are reminded to leave the site once their children have entered the building; Only one parent/guardian per child is permitted on site; If there are additional siblings who have no other carers at home and who are not at school, they are permitted to stand with their parent. They are not to be allowed to run around the playground or interact with other families A one-way system for parents arriving and leaving is in use <p>Entry to the school:</p> <ul style="list-style-type: none"> Students will be met at the designated classroom door / entrance by their Teacher; Parents/Guardians are NOT permitted to enter the school buildings; Entrance doors are held open, reducing the number of occupants touching the doors; Hand-wash stations are located at the entrance to the school (classroom or other). All occupants are required to wash 		<p>Parent Letter to be distributed by 17 July and again late August</p>

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<p>their hands (soap/water or hand sanitiser) on entry to the school;</p> <ul style="list-style-type: none"> • Good hand washing signage to instruct students how to do this effectively is displayed; • Help is available for children and young people who have trouble cleaning their hands independently; • Hand washing demonstrations have been provided to students on how to adequately wash their hands. • Ground floor classrooms/offices have fire exits leading directly outside, these are utilised as entry points to reduce congestion in main entry points. 		Good hand washing signage to instruct students how to do this effectively is displayed
3.	<p>Spread/contraction of COVID-19 due to lack of social distancing measures during the school day including:</p> <ul style="list-style-type: none"> • Leaving the school. 	<p>Leaving the school:</p> <ul style="list-style-type: none"> • Students will be collected in the playground by their parent; • Parents/Guardians are NOT permitted to enter the school buildings; • Exit doors are held open, reducing the number of occupants touching the doors; • Students are reminded to wash hands as they leave the school building; • Hand-wash stations are located at the exits from the school (classroom or other); • Help is available for children and young people who have trouble cleaning their hands independently; • Hand washing demonstrations have been provided to students on how to adequately wash their hands; • Good hand washing signage to instruct students how to do this effectively is displayed. 		Timetables and expectations disseminated to all parents 17 July & September
4.	<p>Spread/contraction of COVID-19 due to lack of social distancing measures during the school day including:</p> <ul style="list-style-type: none"> • Classroom use / activities. 	<p>There will be no large gatherings such as assemblies or collective worship with more than one group.</p> <p>Early years staff to student ratio:</p> <ul style="list-style-type: none"> • In accordance with the early year's framework class sizes for early years will adhere to the following: • Children three or over – one adult for every 13 children 		Collective Worship in bubbles. Timetable of resources and themes by JF

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
	<ul style="list-style-type: none"> • The timetable has been reviewed to decide which lessons or activities can be delivered to reduce movement around the school; • All other classroom controls are the same as primary below. <p>Primary:</p> <ul style="list-style-type: none"> • Classroom sizes are restricted to a normal number of students (approximately 30), 1 teacher and TA if required (specific needs of class); • Students are kept in small groups as they cannot socially distance themselves at all times; • The year group will not interact with other groups within the school; • Hand washing is completed on entrance to the class and between specific activities; • Students are regularly reminded not to touch their or other students faces; • Students are allocated resources and are not encouraged to share; • Individual student desks will be assigned; • Individual student packs to be produced; • Wipe-clean folder with equipment to be ordered and provided for each pupil to keep on designated desks; • Individual and very frequently used equipment such as pencils and pens are not shared; • Staff and pupils have their own items; • Classroom based resources are only shared within a bubble. These resources are cleaned regularly as are classroom surfaces; • Resources shared between bubbles, such as sports, art and science equipment are cleaned frequently and meticulously between use; • Outdoor equipment is more frequently cleaned; • The school limits the amount of equipment students bring to school to only essentials such as lunch boxes, hats, coats, books, stationery and mobile phones; 		<p>shared with all staff</p> <p>Ratios clear and staffing structure compliant – MB</p>

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> Shared resources can be taken home but this is avoided where unnecessary. All such resources are cleaned before used by others; Classroom furniture has been reduced. Displays, unnecessary cupboards and soft furnishings, soft toys and those with intricate parts have been removed and are not permitted. This is designed to enable suitable social distancing and successful and effective cleaning of all surfaces; Children will be encouraged to socially distance – but it is recognised that this is difficult particularly with young children. Social distancing for children in EYFS, Y1 and Y2 will not be possible. Classrooms are arranged so that students sit side by side and facing forwards, rather than face to face or side on wherever possible. Children will face forwards as much as possible, when the teacher is explaining / directing the class. But will face one another on shared round tables when working independently. Where possible classes/activities will be completed outside; Play equipment will be used in rotation. Equipment is cleaned before use by each designated year group; The same Teacher and TA (where applicable) are assigned to a class each day. Where possible this will be one teacher for the whole and subsequent days; The timetable has been reviewed to decide which lessons or activities can be delivered to reduce movement around the school. 		
5.	<p>Spread/contraction of COVID-19 due to lack of social distancing measures during the school day including:</p> <ul style="list-style-type: none"> Dining; Moving around the school; 	<p>Primary (early years):</p> <ul style="list-style-type: none"> Separate lunch breaks are designated for each teaching group. Students will stay in these groups during lunch; Students have packed lunches or are delivered school lunches to designated classrooms; 		Lunchtime timetable created and shared

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
<ul style="list-style-type: none"> Break-time / playgrounds. 	<ul style="list-style-type: none"> Children will be in Year Groups for Lunchtimes. Hot lunches will be served to distinct areas of the hall where the year groups will be seated. Tables are wiped clean with an appropriate disinfectant before and after lunch; Students are advised to clean hands before and after eating lunch in the classroom. <p>Moving around the school:</p> <ul style="list-style-type: none"> Movement to different areas within the school is reduced as much as possible; External doors are used to move students from one area to another. Effectively creating external corridors in the open air; All spaces are well ventilated using natural ventilation (opening windows) or ventilation units; Additional furniture, coats, bags are not permitted in the school corridor; Corridors are sterile environments and kept as clear as possible; Times are allocated for each group to reduce the need to pass one another in open spaces; Where possible students will move with their group only and will not mix with other groups; Staff will generally manage student movement but keep a suitable social distance from students and other staff. <p>Break-times / playgrounds:</p> <ul style="list-style-type: none"> Separate times or areas (at a safe distance using government guidance) are issued for each separate year group. <p>Primary (early years):</p> <ul style="list-style-type: none"> Students are only permitted to complete suitable activities with their year group; 		<p>GS Plus to be contacted and packed lunches arranged. Parents informed— MB</p> <p>LC to ensure clear corridors in daily H&S check</p> <p>Timetable established and disseminated – CR</p>

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> • Due to potential issues with reduced numbers of staff and trained first aiders, playground activities are strictly controlled with structured play. Rough play is prevented; • Daily inspection and enhanced cleaning programs are in place for external areas and equipment; • Outside play equipment and toys will be used in rotation; • Equipment is cleaned before use by each designated year group; • Outside play equipment and toys have been reduced; • This is designed to enable successful and effective cleaning of all outside toys / play equipment. 		
6.	Spread/contraction of COVID-19 due to lack of hand-washing and general poor hygiene.	<p>Primary (early years):</p> <ul style="list-style-type: none"> • Staff and parents are encouraged to use education resources such as e-bug and PHE schools resources; • Hand washing stations are positioned at each student, staff and visitor entrance to the school; • All those entering the school are required to wash/sanitise their hands; • Hand washing stations are located on each floor, within each classroom and on entry to the dining hall; • Hand washing sinks are located within each toilet provision; • Signage is located adjacent to each wash station or sink reminding occupants to wash their hands and how to do it effectively; • Students and staff have been shown how to wash hands properly; • Help is available for children and young people who have trouble cleaning their hands independently; • Hand washing is recommended frequently and required at the following times: <ul style="list-style-type: none"> ➢ Entry and exit from the school; ➢ After using the toilet; ➢ When returning from breaks ➢ On entry to the dining hall; ➢ Before and after eating; ➢ On entry and exit from each classroom. 		<p>Ensure signage – LC</p> <p>Ensure good practice and routines – SLT</p>

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> • Unnecessary touching of the face is discouraged. • Teachers will remind students to use tissues and bin them once used. If tissues are not readily available exactly when needed occupants are reminded to cough or sneeze into their arm, 'catch it, bin it, kill it'; • Toilets and wash stations have single-use paper towel for drying hands. 		
7.	Spread/contraction of COVID-19 due to lack of adequate cleaning measures.	<ul style="list-style-type: none"> • The school has implemented additional cleaning regimes. This includes the following: <ul style="list-style-type: none"> ➢ Frequent cleaning of classrooms, Toilets, common areas and dining halls; ➢ Frequent cleaning of all touched surfaces, such as door handles, handrails, table tops, play equipment and toys. • Classroom furniture and soft furnishings have been reduced in order to improve the ability to effectively clean rooms; • Classrooms will be cleaned at lunch breaks and after school; • Toilets will be cleaned in the morning, after break, after lunch and at the end of the day; • Common areas will be cleaned once a day; • Equipment used by the students and staff will be suitably cleaned at the end of each day or before it is used by another person; • If an area is suspected to have been contaminated by coronavirus (a positive case is detected for an occupant of a classroom), the room will be subject to a hard surface clean with disposable cleaning materials and the associated waste will be double bagged to be stored securely for 72hours before disposal as per the guidance set on COVID-19: cleaning un non-healthcare settings. 		<p>Cleaning routines established – LC</p> <p>Classroom set-up – All Staff</p>
8.	Spread/contraction of COVID-19 due to lack of social distancing measures. In particular school employees.	<ul style="list-style-type: none"> • Employees are required to conform with social distancing requirements at all times; 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> • School offices are either reduced in occupation and desks are positioned in order to provide adequate separation or staff are moved to other areas to reduce contact; • Staff rooms are only to be used when there are few enough adults as specified on the door to safely accommodate staff numbers at a safe social distance from each other; • Each staff area has been assessed, a maximum number of staff occupancy per room has been placed on the door; • Staff are encouraged to bring a packed lunch and use the larger dining areas, keeping a suitable distance from other occupants; • Students will practice social distancing from staff appropriate to their age and as described in additional points of this assessment; • Employees will be provided with and wear PPE when required in accordance with Government guidance. 		Signage and expectations clear and well documented – MB
9.	<p>Spread/contraction of COVID-19 due to insufficient First aid measures or poor arrangements when handling student's medication. This includes:</p> <ul style="list-style-type: none"> • Dealing with general First aid; • Lack of trained first aiders; • Dealing with a suspected case of Covid-19; • Inappropriate handling/removal of clinical waste • Intimate care procedures. 	<ul style="list-style-type: none"> • A specific First aid needs assessment has been completed – see other 'First Aid Needs assessment – COVID-19'; • The FA assessment takes into account numbers and ages of students, number and training of employees; • This information forms the decision on what activities and groups can safely be managed within the school; • This includes sufficient first aiders for the school to the number of students with a particular focus on early years provision; • Qualified first aiders are in place at an appropriate ratio for paediatric first aiders for Early Years provision (Note there is a three month additional time allowed for requalification due to current restrictions); • The school has a specific room/area dedicated for suspected cases of COVID-19; • Where an individual exhibits symptoms during the school day, the individual will be escorted to the marked Isolation Room/Area to isolate them from the main population until additional medical assistance can be gained. This may be 		COVID First Aid Risk Assessment refreshed and re-shared with all staff in September induction

They all receive an induction to inform them of the school's risk assessment and controls to prevent infection risks in the school, when pertinent, relevant training is also provided. 		<p>Make clear in staff briefings and with all meetings arranged</p>

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
11.	Spread/contraction of COVID-19 due to lack of social distancing measures. This includes unsuitable use of toilets.	<ul style="list-style-type: none"> • One in one out management of toilets is in place; • Toilet use protocols are managed by Teachers if located adjacent to classrooms; • Student use of toilets outside of early years' is managed by staff and communicated to students; • Toilet in use signs are in use; • Toilets are cleaned throughout the day; • Students and staff are encouraged to close toilet lids where applicable before flushing. 		
12.	Lack of staffing / insufficient staff ratios	<ul style="list-style-type: none"> • Adequate ratio of staff to children will be maintained and is assessed on a daily basis, based on potential staff illness or self-isolation; • Children are suitably supervised at all times; 		
13.	Lack of suitable premises management	<ul style="list-style-type: none"> • The school adheres to the government guidance on managing buildings that are partially open; • Premises staff levels are maintained and suitable for the use of the building; • Appropriate cleaning and premises staffing levels are in place; • Waste removal and enhanced cleaning programs are in place for the potential coronavirus contaminated waste; • Contingency in place for sudden premises staff absence; • Good ventilation can help reduce the risk of spreading coronavirus, where possible windows doors (unless fire doors) will be opened to improve general ventilation through fresh air, windows and roof hatch ventilation will be kept open as much as possible. 		
14.	Hazardous substances management, unsuitable COSHH management and unsafe use of chemicals leading to ill-health, environmental contamination or fire.	<ul style="list-style-type: none"> • Suitable storage and management of flammable hand sanitizer is in place; • All chemicals used for the cleaning of school buildings and equipment is COSHH assessed and managed appropriately; • Material safety data sheets are held for all chemicals and readily available to all staff; 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> All cleaning chemicals are stored safely and securely in accordance with requirements; COSHH safety training has been completed by all those using chemicals for cleaning; Appropriate PPE is available for all cleaning including suitable PPE for cleaning of potential coronavirus contaminated rooms or equipment. 		
15.	Fire and evacuation procedures being inadequate at this time due to lack of trained fire wardens or occupants being spread around the building without suitable procedures in place.	<ul style="list-style-type: none"> Evacuation plans including the following have been reviewed: <ul style="list-style-type: none"> ➤ Safe assembly points for occupants following social distancing requirements; ➤ Safe exit via the nearest available final exit; ➤ Training occupants of any changes to evacuation; ➤ Ensuring there are enough trained fire wardens on-site with the ability to sweep all used areas of the school; ➤ Use of the school has been reduced to enable safe sweeping and evacuation. All other fire system testing and maintenance has continued as normal. 		Fire Safety RA
16.	Transmission of Covid-19 via food preparation, handling, storage, contact surfaces or packaging.	<ul style="list-style-type: none"> The Kitchen/Catering Manager has reviewed and implemented the <u>Guidance for food businesses on coronavirus (COVID-19)</u> The Kitchen/Catering Manager has reviewed and implemented FSA <u>guidance on good hygiene practices</u> in food preparation and <u>PHE guidance</u> The HACCP processes and waste disposal arrangements have been reviewed to reduce the spread of coronavirus 		Confirm with GS Plus
17.	Spread/contraction of COVID-19 during an educational visit.	<ul style="list-style-type: none"> In line with Government advice, overnight and overseas educational visits will not be carried out during the autumn term A risk assessment – in line with the school’s policy will be carried out for non-overnight domestic educational visits. 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
18.	Spread/contraction of Covid-19 due not acting appropriately when a case is suspected or confirmed.	<ul style="list-style-type: none"> • If anyone becomes unwell in school with a new, continuous cough or a high temperature they are sent home/their parents or carer are contacted to collect them and they are advised to follow COVID-19: guidance for households with possible coronavirus infection • Parents/Carers are informed that they MUST inform the school as soon as possible if their child has displayed symptoms, or has had a positive test result. The child MUST begin a period of 14 days self isolation. • Parents/Carers are informed that a responsible adult should be on standby in order to collect their child from school if they become unwell during the school day. The name of the person who will collect the child needs to be provided and recorded for safeguarding • The school has identified the <u>Local Health Protection Team (HPT)</u> so they can be contacted immediately in the case of a case, the HPT details are available to the SLT • The school keeps informed of Government and Department for Education guidance and updates • To avoid attendance to the school, remote education plans are in place for students or groups that need to self-isolate • A contingency plan is in place for a local outbreak, and if the school is asked to close temporarily by HPT or local authority to help control transmission. The plan may involve a return to remaining open only for vulnerable children and the children of critical workers only, and providing remote education for all other pupils. <p>Actions taken when after confirmed case or positive test result is reported.</p> <ul style="list-style-type: none"> • Bubble is closed, and all parents of that bubble informed • Members of the bubble self-isolate for 14 days and follow the stay at home guidance 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<p>https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection</p> <ul style="list-style-type: none"> • Identify who is a 'proximity contact' as defined • Class moves to remote learning platform • Room is thoroughly cleaned. The room will be subject to a hard surface clean with disposable cleaning materials and the associated waste will be double bagged to be stored securely for 72hours before disposal as per the guidance set on COVID-19: cleaning un non-healthcare settings. • Bubble will re-open after 14 days to staff and pupils who have not displayed symptoms in that time. 		
19.	<p>BAME Employees</p> <p>We know from Public Health England, from the Office of National Statistics and from a range of recently published research that some groups of people are more at risk from COVID 19, notably those with certain long term health conditions. BAME staff are particularly at risk, and the NHS has specifically identified the importance of risk assessments for BAME staff</p>	<ul style="list-style-type: none"> • Risk assessment should be carried out for all staff, but especially for BAME staff as a priority, so that a personalised risk mitigation plan can be put in place for each member of staff. (BAMEed-Network_Schools_and_Covid-19) • Measures to reduce exposure to risk must be implemented as a priority to protect the lives of staff and students. • Appropriate PPE should be made available and clear instruction and training should be provided to school staff regarding how to wear and dispose of, or re-use these, where fitting. • It is advised that organisations provide resources for remote working for all staff as priority. • BAME staff should be considered for redeployment to lower risk work areas or home working. • If completely working from home or redeployment is not possible, a balance between working from home and school may be a way of reducing COVID-19 risk exposure. • Staff will need reminders of avenues available to speak out about issues 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
		<ul style="list-style-type: none"> • Staff can access the free helpline "Employee Assist Programme" for school staff and targeted support for mental health and wellbeing • There is regular communication, consultation and support networks in place for staff and if there are particular concerns staff can raise them quickly and effectively with senior leaders of the school. 		
	<p>Spread/contraction of COVID-19 due to lack of social distancing measures during the school day including:</p> <ul style="list-style-type: none"> • Classroom use / activities. • Start and End of school day. • Dining and moving around the school. • Break and Playtimes. 	<p>AS OUTLINED IN PAGES 9 TO 13 BUT ALSO TO INCLUDE</p> <ul style="list-style-type: none"> • Bubbles will not exceed 10 children so that there is minimal numbers of children in each classroom. • Adults will keep a 2m distance from children wherever possible and appropriate to the age of the children. • Face masks (including if wearing a visor) should be worn by adults in classrooms. • Dining will be held in their bubbles within the school hall at distance from other bubbles in the dining hall at the same time. • Movement around the school will be minimal. Toilets carefully managed and cleaned regularly. • Break and playtimes will be in their own bubble and coordinated by DHT 	HIGH	As outlined

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Further Actions
